Introduction of University

History

In 1924, Dr. Sun Yat-sen, the Founding Father of the Republic of China, incorporated the National Higher Normal College, Kwangtung Provincial Law College, and Kwangtung Provincial Agricultural Technical School into the National Kwangtung University. He declared the school motto to be erudition, examination, contemplation, discernment, and implementation to encourage students and instructors on making unremitting effort to improve themselves.

After the demise of Dr. Sun, to commemorate his contribution and devotion to the nation, the University was renamed the National Sun Yat-sen University in 1926 and its campus site relocated in Shin-p'ai, Canton. After moving to Taiwan, because of the demand for higher education, the government re-established the university in Kaohsiung in 1980 and considered Dr. Sun's birthday (November 12) to be its anniversary. NSYSU has emerged over the years as one of the best comprehensive universities in the country. In 2002 NSYSU was named by the Ministry of Education as one of the country's seven major research-intensive universities. We are the leading national university in Southern Taiwan, and have set the benchmark for high standards in teaching, research, and internationalization. Our curriculum is well balanced to cover most disciplines in liberal arts, management, social sciences, engineering, science, and marine science. It is the common aim of our faculty and administrative team to provide a well-rounded and memorable educational experience for all our students, undergraduate or graduate.

With the dedication of previous and present university presidents, NSYSU continues to prosper and develop, and has become one of the top universities in Taiwan. It consists of six colleges, including the colleges of Liberal Arts, Science, Engineering, Management, Social Sciences, and Marine Sciences, with 18 undergraduate, 35 masters, and 25 doctoral programs. The enrollment has reached 9500 students and the number of full-time faculty members approximates 440.

Located alongside the Hsitzu Bay of Kaohsiung city, the campus leans east against the Longevity Hill, faces west to the Taiwan Strait, leads south to the port of Kaohsiung, and rests north on Mount Chai. With inspiration from the majestic sea all year round, students are awakened by their thirst for truth and advance their knowledge in the liberal ambiance.

Development Features

- Create a quality university based on integrated resources
- Establish a First Rate International Teaching and Research Campus
- Develop General Education with Diversified Comprehensive Curriculum
- Cultivate Society's Leaders
- Promote Social Interaction as Basis for NSYSU's Strategic Development

Vision

NSYSU is the leading international academic institution in Southern Taiwan.

Striving to become an internationalized research university

- Through our solid curriculum, we hope to provide diverse and comprehensive higher education
- Through research and development, we hope to pursue academic excellence combining theory and practice
- Through extension services, we hope to become the source of lifelong learning and community outreach

I . Introduction of Program

International Master's Program in Electric Power Engineering

The Electrical Engineering Department at National Sun Yat-sen University provides students the capabilities to achieve rewarding careers in designing new products, conducting advanced research, and teaching at all levels of schools. The department has consistently ranked among five of the best EE programs in the nation, and offers all-level (bachelor, master, and Ph.D.) degrees in electrical engineering. With its overall best-averaged academic/research performance among all national research-intensive universities in Taiwan, the electric power related major in the EE department has attained international recognitions and competitions among the related professional societies. The objectives of launching the *International Master's Program in Electric Power Engineering (IMEPE)* are:

- Assisting international students in developing advanced electric power engineering capacities
- Promoting professional exchanges among international experts in electric power engineering
- Enhancing the electric power engineering design and analytical capabilities of diplomatic allies

Based on their academic/professional backgrounds and research interests, the students enrolled in the IMEPE program can choose the following subjects as their research specialties during the study period:

<i>Cogeneration</i>	<i>Distribution Automation</i>	<i>Dynamic Analyses</i>
<i>Electric Drives</i>	<i>Energy Management System</i>	<i>GIS</i>
<i>Machine System Designs</i>	<i>MRT E & M Systems</i>	<i>Power Electronics</i>
<i>Power Quality</i>	<i>Power System Analysis</i>	<i>Power System Stability</i>
<i>Smart Grid</i>	<i>Special Protection System</i>	<i>Renewable Energy Sources</i>

Students have to complete a total of 24-credit course work (at least 12 must be received from the core courses), and a Master's thesis in the field of electric power engineering for graduation. Students are required to submit and defend his/her thesis to a panel of 3-5 committee members. The topic of the thesis should be related to his/her research specialties and meet the industrial development needs of the student's country.

The students will earn the "Master of Science (major in Electric Power Engineering)" degree from the Electrical Engineering Department after completing their studies.

II. Qualification

International Master's Program in Electric Power Engineering

- (a) Applicants must hold a bachelor's degree (including students graduating before Aug., 2010) in fields related to electrical/electronics engineering at universities/colleges approved by the Taiwan Ministry of Education.
- (b) Applicants from countries where English is not the native language, or who have completed their bachelor's degree at a non-English speaking academic institution, are required to take the TOEFL or provide appropriate English-proficiency verification. TOEFL score iBT-TOEFL of 61 / CBT-TOEFL of 173/ Paper-based TOEFL of 500 / IELTS of 5.0.
- (c) All materials must be forwarded by the ROC (Taiwan) Embassy / Representative Office to National Sun Yat-sen University. Applicants who are admitted to the program MUST provide a diploma verified by the Taiwan Embassy/Representative Office to register at the university.

III. Admission

International Master's Program in Electric Power Engineering

Academic Year 2010-2012

1. *Prospective Applicants*

Prospective Applicants: Open to all graduates of Science, Engineering and/or related programs subject to the approval of the *Admission Committee*.

2. *Limitations*

The program is open to all nationals whose country maintains a diplomatic relationship with Taiwan, but the followings are not included:

- 1) Applicants who have been granted *Overseas Chinese Student* status.
- 2) Applicants who have been expelled from other universities in Taiwan.
- 3) Applicants who are residents and/or citizens of Hong Kong, Macau, or The People's Republic of China.
- 4) Applicants who have withdrawn their allegiance and citizenship from Taiwan. (However, this item can be overruled should the applicant have completed the 8-year prescriptive period of Ministry of the Interior from the date of the opening of classes.)

3. *Screening Procedure and Application Requirements*

- 1) Screening Procedure: The Admission Committee shall deliberate on the documents and material submitted by the applicants.
- 2) Application Requirements:
 - A. Two (2) copies of completed application forms.
 - B. Photocopy of a valid passport or Alien Resident Certificate or birth certificate.
 - C. Copies of Diploma and Transcript of Record:
 - a. Two (2) photocopies of diploma (should be authenticated by Taiwan representative office in the area where the university is located).
 - b. Two (2) photocopies of diploma translated in English/Chinese if the original copy is written in any other language.
 - c. Two (2) original copies of transcript of record (should be authenticated by Taiwan representative office in the area where the university is located and have them stamped and sealed by the university).
 - d. Two (2) copies of transcript of record translated in English/Chinese if the original copy is written in any other language.
 - e. **Applicants who are admitted to the program MUST provide a diploma verified by the ROC (Taiwan) Embassy / Representative Office to register at the university if they do not provide one during the application procedure.**
 - D. One (1) copy of medical certificate signed by a certified medical practitioner to include HIV Antibody Test conducted within 6 months from the application date.
 - E. Proof of the loss of nationality of Taiwan. According to the Article 2 of the Law of Nationality, overseas Chinese applicant should have lost the nationality of Taiwan for a prescriptive period of 8 years (Starting from the date of the approval from the Ministry of the Interior to the date of the registration of National Sun Yat-sen University).
 - F. Other Requirements:

- a. English-proficiency Verification. Applicants who are not of English-speaking nationalities or who have completed their bachelor's degree in a Non-English speaking academic institution are required to provide the TOEFL, GRE, or any other official document to verify his (her) English proficiency.
- b. Study Plan.
- c. Two (2) Recommendation Letters duly sealed.
- d. Research output, thesis, publication or any material that can further support application.

4. Completion Requirements

Students enrolled in this program are required to complete all academic requirements within a period of two (2) years.

5. Academic Requirements

Students enrolled in this program are required to complete twenty-four (24) units of academic courses having three (3) units each. Four (4) of these courses shall be taken from the core courses specifically designed for this program. Students need to seek the advice of his faculty adviser to help him design his academic loading. With the approval of the program director, the remaining four (4) courses can be taken at the students' liberty from any of the Engineering courses available. The eight (8) specifically designed courses for this program are:

- 1) *Advanced Electric Machinery Theory*
- 2) *Finite Element Analysis of Electric Machinery Systems*
- 3) *Linear System Analysis*
- 4) *Load Flow Analysis*
- 5) *Optimal Control*
- 6) *Power Electronics Converter*
- 7) *Power Quality*
- 8) *Power System Operations*

6. Thesis Requirement

A Master's thesis in the field of electric power engineering is a strong requisite for graduation. Students enrolled in this program are required to submit and defend his/her thesis to a panel of 3-5 committee members. The topic of the thesis should be related to his/her specialties and meet the need of the industrial development of the student's country.

7. Admission Results and Registration Date

- 1) The University shall announce the names of the short-listed applicants at the end of May. Admitted students will register in September.
- 2) An accepted applicant only needs to present his *letter of admission* to the ROC (Taiwan) Embassy / Representative Office in his country to process his visa. Admitted applicants who fail to report before the date stated in the admission letter shall likewise be removed from the roster.
- 3) The University shall be conducting a verification procedure to authenticate the documents forwarded for screening. Any applicant who has submitted falsified documents or could have rigged the application procedure shall be disqualified from the program.
- 4) Students are required to present the original copy of the diploma for verification while report to the University. Graduating students who do not receive the diploma at the time should present it upon registration. For those who fail to do so will result in disqualification from the program.

8. Medium of Instruction

All classes shall be conducted in English.

9. Visa Requirements

Please visit the nearest ROC (Taiwan) Embassy / Representative Office in your country or log on to <http://www.boca.gov.tw> or call +886-2-2343-2888 extension number 6 or fax to +886-2-2343-2968.

10. Scholarship and Financial Assistance

Short-listed applicants shall be entitled to a two (2) year *full scholarship* provided by the International Cooperation and Development Fund (*TaiwanICDF*) from August 2010 to July 2012. The scholarship is granted in compliance with the exact starting and end months, if the case arises that the report date is later than August or the graduation date earlier than July.

Scholarship:

The scholarship shall cover airfare, dormitory allowance, tuition and credit fees, miscellaneous expenses, insurance allowance, book allowance, and living allowance:

- A. Airfare. As regulated by the *TaiwanICDF*.
- B. Dormitory. Accepted students shall be housed in the graduate student dormitory.
- C. Tuition and Fees. As regulated by NSYSU.
- D. Credit Fees. Based on the required total number of units enrolled.
- E. Insurance Allowance. To cover basic insurance as provided by the National Health Insurance and student safety insurance as regulated by the Ministry of Education, the allowance also covers accident and health care insurance.
- F. Book Allowance. To cover textbooks and other reading materials as approved and purchased by the program director.
- G. Living Allowance. Each student shall be given NTD 15,000.00 per month as living allowance.

11. Academic Calendar

1st Semester starts in September

2nd Semester starts in February

12. Other Matters
