

# TIWW 2024: Paving the Way for Cross-Industry Collaboration

Being one of the key trade shows for the water industry, TIWW 2024 attracted over 2,500 professional buyers from 36 countries. These visitors came from a diverse range of industries, including semiconductors, petrochemicals, construction, manufacturing, software, electronics, etc. What's impressive is that 50% of them specifically came to TIWW to seek new partnerships and investment opportunities.

TIWW 2024 has created several prospects for business expansion and cross-industry collaboration. With increasing demand for stable water supply worldwide, it is expected that there will be more inter-industry cooperation and cross-industry partnership in 2025.

## WHY YOU MUST JOIN TIWW 2025

Enter the Asian Market and Expand Your Global Reach

Showcase Cutting-Edge Technologies and Solutions

Engage with Decision-Makers Across Various Sectors

Leverage Taiwan's Major Investments in Water Solutions

Contact us for more info

# TAIWAN INT'L WATER WEEK

*Every Drop Matters !*

OCT. 29 ——— 31, 2025  
TaiNEX 1, 4F

## Join TIWW 2025 and Seize Unlimited Business Opportunities in Water Sustainability!

Amid a booming semiconductor industry and water shortage, Taiwan faces ongoing water challenges that drive both public and private sectors to upgrade infrastructures and invest in water management to improve efficiency and stabilize supply.

In recent years, over US\$57 billion has been invested in water infrastructure, including wastewater treatment, desalination, and reservoir interconnection pipelines. For 2025, the Taiwanese government has allocated approximately US\$17.5 billion for water management—a 40% increase from 2024—demonstrating a strong commitment to water resources and creating vast business opportunities.

Aligned with SDG 6 and market demand, TIWW 2025 highlights Water Technology, Water Resilience, and Water Quality. Co-located with Energy Taiwan and Net-Zero Taiwan, it offers abundant cross-industry opportunities. Join TIWW 2025 and showcase innovations, build connections, and tap into Asia-Pacific's booming water market!

### 3 Key Themes: Shaping the Future of the Water Industry!

Under three key themes, TIWW 2025 boasts exhibitors in 6 exhibit zones, including water treatment, automation and smart water, environmental and hydraulic engineering, water transportation and storage, water purification and drinking water, as well as certification and testing.

Participating in TIWW 2025 gives you direct access to Taiwan's rapidly growing water market, and connects you with government, industry leaders, and high-water demand buyers in Asia and beyond.

Themes >>

Water Technology

Water Resilience

Water Quality

Zones >>

Water & Wastewater Treatment

Environmental & Hydraulic Engineering

Water Purification Equipment & Drinking Water

Automation, Process Control & Digitalization

Transport & Storage

Certification & Other Services

## Your Gateway to the Lucrative Asian Water Industry

Showcase Innovation & Boost Brand Exposure

Explore New Partnerships & Unlock Business Growth

Network with Experts & Build Valuable Connections

Foster Cross-Industry Collaboration & Maximize Business Opportunities

### Secure Your Spot and Get the Early-Bird Discount

Apply by June 30th to get a 15% discount on the raw space rate

Type of Booth	Regular Price		Early Bird Discount	
	Facing Main Aisle	Regular	Facing Main Aisle	Regular
Raw Space >>	US\$ 2,600	US\$ 2,400	US\$ 2,240	US\$ 2,040
Shell Scheme >>	US\$ 3,000	US\$ 2,800	US\$ 2,640	US\$ 2,440

- † The booth size is 9 SQM (3m × 3m).
- † Each booth includes 110 volts and 500 watts of basic electricity, any other requests will be applied and paid by the exhibitors.
- † All shell scheme items are on a rental basis (non-refundable) and non-exchangeable.
- † Raw space is only available to exhibitors who rent 2 booths (18 SQM) and above.
- † An additional US\$100 fee is required for corner booths.
