CHALLENGE THEME & SELECTION CRITERIA

About Presidential Hackathon

Started from 2018, Presidential Hackathon (PH) aims to facilitate exchanges among data owners, data scientists, and field experts to assemble the wisdom of crowds across government, industry, and private and public sectors. By encouraging cooperative proposals from citizens, PH address the strong connection among citizen engagement, scientific verification, and policy implementation to increase welfare of the citizens.

2021 Teams of Excellence

CHALLENGE THEME : Sustainability 2.0 - Climate Action

A/B Street

The A/B Street project creates open source software for government agencies, transportation planners, cycling advocacy groups, and individuals to better communicate ideas for promoting walking, cycling, and public transit.

Office farmers

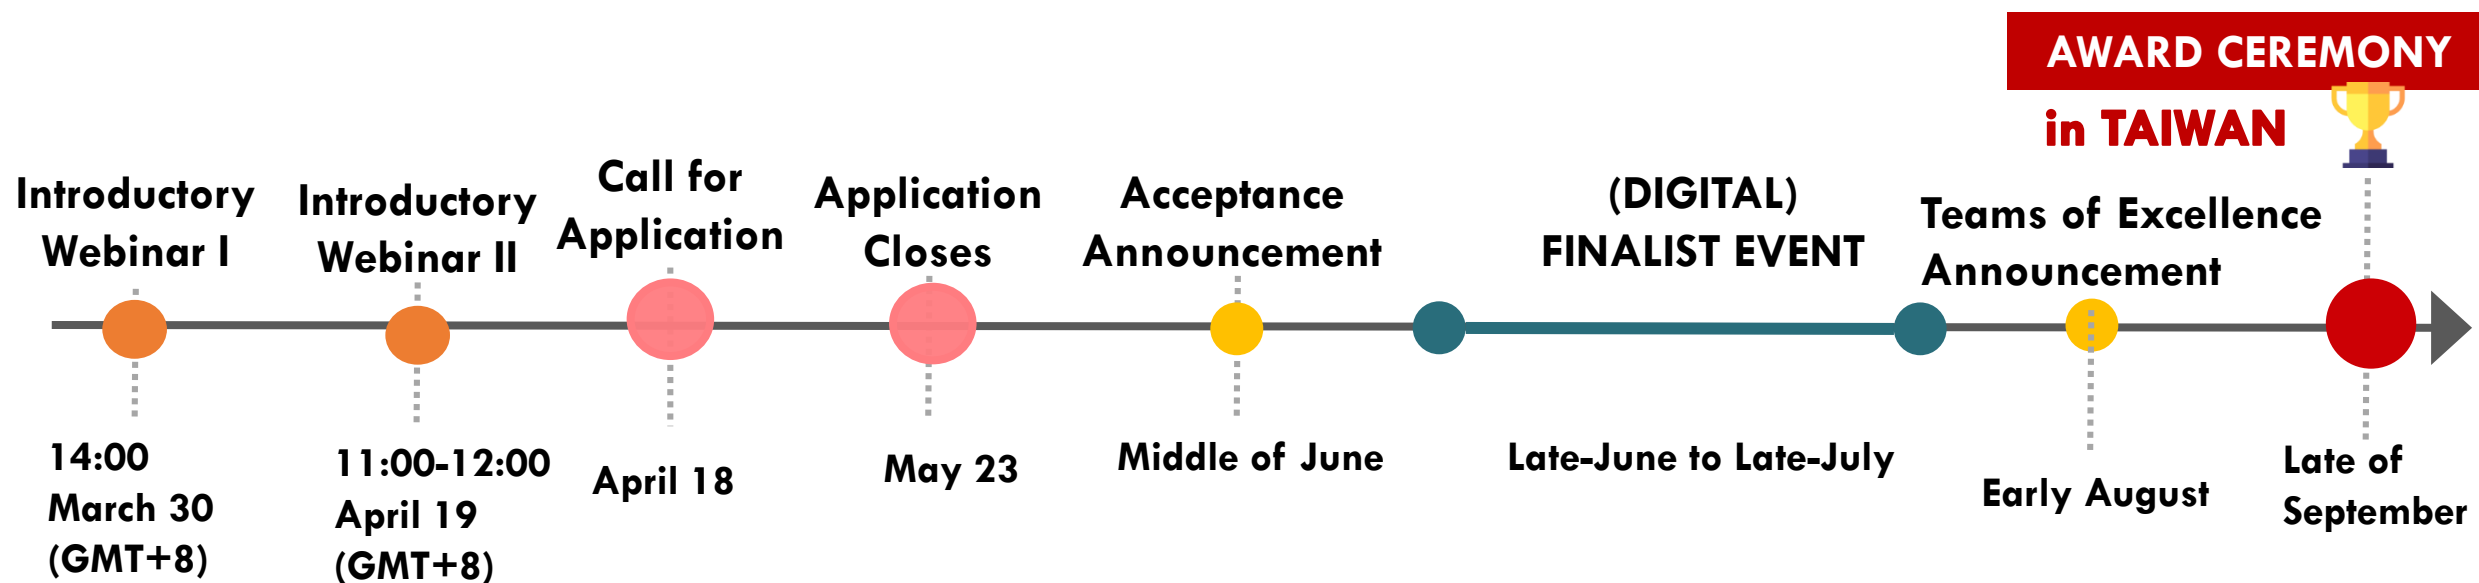

The team created a user-friendly platform that assists farmers optimize farming-related decisions by utilizing big data to combat against climate change.
