

# **Guidelines for Submission to the 2018 Austronesian International Arts Award**

## **I. Philosophy**

The word “Austronesian” comes from an anthropological term, “Austronesian language” family. It refers to ethnic groups living on islands in the South Pacific Ocean and Indian Ocean. Such ethnic groups are widely distributed, covering Taiwan to the north, Easter Island to the east, Madagascar to the west and New Zealand to the south. The family contains a large number of “Austronesian languages” and ethnic origins with pure, clean scenery and diverse cultures in inhabited areas. Many literary reviews have proved that Taiwan is where the Austronesian language family originated. Thus, the “Austronesian” cultural lifestyle can be felt from the lives of Taiwan’s indigenous peoples.

Located on the eastern side of Taiwan, Taitung boasts much natural beauty in addition to well-rooted cultural elements. Austronesian culture happens to be a key element in Taitung’s cultural elements. Thus, the Taitung County Government organizes “the Austronesian International Arts Award” biennially as a way to encourage artists to expand the energy of their artistic creations, open up the heart of the world to contemporary reflections and multiple-perspectives, promote international dialogue regarding Taitung’s local characteristics, natural scenery, the cultural network, environmental topics, and the life memories of the Austronesian language family. This event requires creators to complete an artist residency program in Taitung, and experience Austronesian life personally during their creative process so that their artwork resonates deeper with the Austronesian spirit. This will produce new aesthetic energy that resonates with the locale, to be disseminated internationally. The hope is for this art award to become an open platform to express concern about Austronesian topics from creators around the world.
